Sprint 1 Summary

Review Summary

1	We faced difficulty in Identifying user stories and choosing user persona's according to people.
2	After week 2 and 3 we made Activity Diagram corresponding to our UI/UX Wireframe design.
3	In week 4 we made the Class Diagram, After identifying the different Classes. We Also developed the acceptance criteria for Sprint 1 plan.

Retrospective Summary

1	After completion of week 1 we were comfortable in making persona's using xtensio.com and also made several extra user stories also to be acquainted with it.
---	--

2	After making the Activity Diagram and Wireframe Design's we were comfortable in using LucidChart.
3	We were able to make class Diagram easily after that using Clearly.com .
